Buffalo Robes

We have culled out a limited number of hides that do not fit the specifications of our select bison robes. Not all robes are used for display. Many crafters use buffalo robes for numerous projects. Knowing this, we would like to offer them to you at a significant discount.

These second quality hides are being sold at a massive discount. There are defects such as bald patches, holes, blemishes, and stiff sections around the neck area. Still makes good tipi flooring and can be used for numerous projects.

All hides are full and measure the same as higher quality robes.

Gold Bison Split

Bison leather is a preferred leather for a wide array of native craft items, but many times the heavy weight and nature of this leather does not make it possible. We now offer a bison split that eliminates this problem. Split down to a weight averaging around 3-1/2 oz, these hides are a nice color at an unbelievable price. Hide size ranges from 7-9 SF. Perfect for moccasins, bags and small garments.

Fluffs PER OUNCE

These numbers are approximate and vary considerably due to the availability of raw feathers and the length for each size. This is a basic guideline to assist you in determining quantities required for your project and we recommend ordering more than you think you will need, as some shorter fluffs may need to be culled for use in other projects.
